

Hello,

I am an immigrant and CT has been my home most of my life. I've always worked, gone to school, paid my bills and have dreams just like any other ^{US} citizen. The difference is that I don't have legal residence and therefore, I live, go to school, pay my bills and dream with fear. Fear that, even though I pay my taxes, owe nothing to anybody, and abide by the laws of this state, I may be unfairly targeted for deportation, despite the fact that I don't represent a threat to anybody. ~~and~~ *and subsequently*

I'm a family man who has had to work up to 3 jobs to make ends meet, go to school and provide for my family. I'm not looking for any freebies, I'm just looking for the right to not have to live in fear of being separated from my wife and American children.

Please help ^{me} ~~my~~ and my family by supporting HB 7039. God bless!

Thank you,

Juan Gonzalez
